Dear Professor Singer:

Enclosed, for your reference, are two additional publications that may be useful in preparation for your participation on the Bromide Expert Panel on September 8 and 9, 1998 at the **Sacramento Convention Center, Room 103**, 1300 J Street. The CALFED Phase II Interim Report is a summary of the progress of the program to date, and the Delta Atlas presents useful background information on the Sacramento-San Joaquin Delta estuary. I am looking forward to our meeting.

Sincerely,

Rick Woodard, Manager
Water Quality Program
